

Dear readers and business partners,

the focus of our current newsletter is on sport. At the same time we would like to draw your attention to a special event in our home town of Plettenberg.

Regards, Schulte-Wiese Gesenkschmiede

WSW – we put great emphasis on sporting activities

For several years whenever time has allowed we have taken part in sporting events in our region and have been successful at football for many years. This fosters team spirit, which we need to be successful, not only in our everyday working life.

This year we were able to prove this team spirit in two further

events we took part in. In June we entered a team to run in the 14th AOK (health insurers) firms' race in Märkischer Kreis, where more than 5,000 runners and 300 companies took part. Then in September we took part in the Plettenberger Prange Cup in basketball with 8 teams from this region.

In November there will also be a sporting event in Plettenberg – but only for the professionals – we shall only be spec-

tators. The **First Punch Boxpromotion** , an affiliate from the **Prange Group** , is hosting the GBU European Championships on 5th November in the Volksbank Arena in Plettenberg.

In the top fight the knockout boxers Marek Jedrzejewski (knockout rating 90%) and Manuel Buchheit (knockout rating 88%) will meet, both of them are undefeated so far. In the preliminary program there will be eight more fights. Tickets can be obtained from eventim.de , through the hotline 01806-570070 or at

the Fussbodenzentrum at Maipplatz in Plettenberg. The video shooting for the event was done on 10th October at our forge.

Our staff

Annika Selter, joined our team in August and is in her first year of training as an industrial clerk.

"An important reason for choosing to train as an industrial clerk was the opportunity to work in a team as well as having contact to the customers. I am glad that I can work at WSW because from the very first day of my training I have felt like part of the WSW team."

Did you know...?

On 29.09.2016 we added forging tool number G-2680 to our tool book. Since the firm was founded in 1957 we have produced on average 45 new parts a year.

This year, by the third quarter our customers, including 4 new customers, have put their trust in us and have already placed orders for 43 new parts.

At this point we would once again like to take the opportunity to thank them all. We also thank our suppliers whose commitment also made this possible.

Yours, WSW Team!
